

# **ALLERGY ACTION PLAN**

Name	
Known Allergens	
Emergency Contact details	

### Mild/Moderate Reaction

- Hives (raised, red itchy rash)
- Itchy/tingling lips, mouth or tongue
- Swollen lips, face, or eyelids
- Abdominal pain or vomiting

#### Action to take

Take

### non-sedating antihistamine(s)

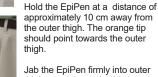

- Take a second dose if you have vomited, or are no better after 30 minutes
- Be prepared to use your adrenaline autoinjector.

## How to give EpiPen®

Grasp EpiPen in dominant hand (the hand you use to write), with thumb nearest blue cap and form fist around unit (orange tip down)

With other hand pull off blue safety

approximately 10 cm away from the outer thigh. The orange tip should point towards the outer

Jab the EpiPen firmly into outer thigh at a right angle (90 degree angle) (listen for click).

Hold firmly against thigh for 3 seconds. The injection is now complete and the window on the auto- injector is obscured EpiPen should be removed (the orange needle cover will extend to cover needle) and safely discarded.

Dial 999, ask for ambu-lance, and state anaphy-laxis.

### Watch for signs of ANAPHYLAXIS

(life-threatening allergic reaction)

Anaphylaxis may occur without skin symptoms: ALWAYS consider that you might be having anaphylaxis if you develop SUDDEN BREATHING DIFFICULTY

- · Swelling in throat, tongue or upper airway
- Difficulty in swallowing
- BBREATHING
- Sudden onset wheezing
- Breathing difficulty Noisy

breathing

- **C** CIRCULATION · Dizziness, feeling
  - faint Sudden sleepiness,
  - tiredness, confusion Pale clammy skin
  - · Loss of consciousness

### If YOU HAVE ANY OF THESE SIGNS OF ANAPHYLAXIS:

Lie flat with your legs raised (if breathing is difficult, you may sit up)

- Use your Adrenaline auto-injector without delay (eg. EpiPen®)
- Dial 999 for ambulance and say ANAPHYLAXIS ("ANA-FIL-AX-IS")

#### AFTER GIVING ADRENALINE:

- 1. Stay lying flat or sitting up until ambulance arrives, do NOT stand up.
- 2. If you are no better after 5 minutes, give yourself a further adrenaline dose using a second auto-injectable device, if available.

You can dial 999 from any phone, even if there is no credit left on a mobile. Medical observation in hospital is recommended after anaphylaxis.

- Always carry your adrenaline auto-injector(s) with you
- Check the expiry date regularly on your adrenaline auto-injectors
- Practise how to use your pen with a trainer device
